Worklog — Multi-Agent Shared Log

Task ID: 1
Agent: Main agent (Z.ai)
Task: Create a master build prompt for TalentBridge_V2 (MERN, 3 views, DM system, calendar events, notifications, company command center, seeded demo data)

Work Log:

- Asked user 8 clarifying questions (target AI, stack, auth, events rule, company view style, notifications, demo data, delivery format)
- User choices: Z.ai new chat, MERN, seeded demo login, recruiters-only events, command center company view, bell + dropdown notifications, full demo data, chat + .md delivery
- Drafted master prompt covering 12 sections (stack, accounts, 3 views, DM, notifications, models, seed data, UX, deliverables, acceptance checklist)
- Saved to /home/z/my-project/download/TalentBridge_V2_Master_Prompt.md

Stage Summary:

- Deliverable: TalentBridge_V2_Master_Prompt.md — copy-paste ready prompt for a fresh Z.ai chat to build the full app
- 9 seeded accounts: 4 job seekers, 2 recruiters, 3 company users (CyberSec/Engineer/CEO)
